

SAMEER SUYOUFUDEEN

SKILLS

Proficient in **SQL, MS Excel / Googlesheets**, Beginner level knowledge in **Tableau** and also knows **R Programming Language**.

Other skills include **Database Design, ERD, Data analysis, Client management, Follow-ups,**

OBJECTIVE

To get a senior role in a data-oriented environment. My total Experience is 4years and 9 months where I have mostly worked in Business Development and Client Management. Other than that, I am a Team player and great communicator.

PORTFOLIO PROJECTS

SQL Covid-19 Data Exploration

Currently **Exploring covid-19 open data** using **SQL** and will be soon publishing on my portfolio website.

Analysis of Tata Nexon EV HV Error

Explored data using **google sheets**, collected from users to see if Fast charging has any connection with occurrence of HV error. The basic theory is that the Fast charging equipment send current in high voltages than the vehicle can accommodate thus going into an error-state. **Created a live dashboard & report** to show my findings.

Google Capstone Project: Divvy Bikes

Used **Excel** to organise and **prepare data** of a bike sharing company called "Cyclistic". Then **used R to clean, sort, filter and visualize the data**.
